# Jesús Antulio Jiménez Delgado

## Intelligent Systems Engineer

jesus_antulio@outlook.com | +52 444 828 8334 | San Luis Potosí, Mexico | jesus-antulio.com.mx

## PROFESSIONAL PROFILE

Intelligent Systems Engineer with experience in web and mobile software development, remote teamwork, and problem-solving in real-world environments. I adapt quickly to new technologies and tools, pay close attention to detail, and seek to contribute in technology roles where I can continue to grow professionally.

## PROFESSIONAL EXPERIENCE

**Frontend Developer** March 2024 – Present

FoxCode México · Remote

- Develop web and mobile applications using Angular, Ionic, and Capacitor, from implementation to delivery.
- Design reusable components and modular architecture to improve code maintainability and scalability.
- Integrate APIs and third-party libraries to shorten development time.
- Build websites with Astro, focusing on performance and reduced load times.
- Manage version control and collaborate with a remote team using Git, reducing deployment errors.
- Resolve technical problems in real-world environments.

**Intern** July 2022 – May 2023

Coordinación de Tecnología Educativa, UASLP · Remoto

- Developed educational video games to support teaching, contributing to concept development, graphic design, and functional development.
- Implemented functionality using JavaScript and jQuery, optimizing performance for smooth operation.
- Designed intuitive experiences that increased interest and interaction among students and teachers.

## EDUCATION

**Bachelor's Degree in Intelligent Systems Engineering** 2018 – 2023

Facultad de Ingeniería, UASLP · San Luis Potosí, México

## TECHNICAL SKILLS

- **Software development:** HTML, CSS, SCSS, JavaScript, TypeScript
- **Frameworks and platforms:** Angular, Ionic, Capacitor, Astro
- **Integration and quality:** API consumption, reactive forms, reusable components, performance optimization
- **Tools:** Git, GitLab, GitHub
- **Teamwork:** remote collaboration, version control, problem-solving

## VOLUNTEER EXPERIENCE

**ANUIES** October 2023

- Assisted with organizing and presenting talks, both in person and through video conferencing tools.

## LANGUAGES AND COMPETENCIES

- **Languages:** Spanish (native) · English (written)
- **Personal competencies:** adaptability, continuous improvement, effective communication, quick learning, attention to detail.
